**MEMORANDUM**

**TO:** Worcester Township Board of Supervisors  
**FROM:** Joseph J. Nolan, P.E., Township Engineer  
**DATE:** July 1, 2020  
**SUBJECT:** Engineering Report - Project Status

---

This memorandum will provide an update and status report on the various projects that are ongoing within the Township as of July 1, 2020.

1. **Turnpike Sound Barriers Grant Project:** We are continuing with the design work on this project. We submitted our final design plans to the Turnpike, and they are in the process of their review. They are requiring additional information in conjunction with their review process. We are working on providing this information.
2. **2020 Road Program:** The contract for the 2020 Road Program has been awarded to James D. Morrissey, Inc. PennDOT has approved the project for the use of Liquid Fuels funds.
3. **Miscellaneous Items**
  - a. CKS Engineers assisted the Township on numerous zoning and land development related issues as requested during the month.
  - b. CKS Engineers performed various site inspections in conjunction with finalizing Use & Occupancy Permits during the month.
  - c. CKS reviewed numerous grading permit applications and stormwater applications for the Township during the month.

CKS Engineers, Inc. continued to provide inspection services for part of this month in conjunction with all ongoing land development and subdivision projects throughout the Township. This also included verifying completion of items and preparation of escrow releases for these projects, as requested. Work is continuing at Whitehall Estates, The Reserve at Center Square, and at Meadowood. Construction activity has returned to normal for most projects.

- e. CKS continued to assist in work required in conjunction with the review and approval of subdivisions and land developments and Conditional Use applications submitted to the Township. These included the Palmer Tract, 2750 Morris Road (Amazon), 2578 Morris Road, Meadowood, and 3019 Germantown Pike.

- f. CKS has obtained quotes for the internal video inspection of the sanitary sewers in the Valley Green area. This will help identify potential leaks and defects in the sewer system. We will get this work completed in July.

The above represents a status report on the projects and services currently being performed by CKS Engineers, Inc. Please contact me if you have any questions on any of these items.

Respectfully submitted,
