

WORCESTER TOWNSHIP

ORDINANCE NUMBER 99-167

AN ORDINANCE OF WORCESTER TOWNSHIP AMENDING AND SUPPLEMENTING THE WORCESTER TOWNSHIP SUBDIVISION AND LAND DEVELOPMENT CODE BY ADOPTING STANDARD CONSTRUCTION AND MATERIAL SPECIFICATIONS FOR SANITARY SEWER EXTENSIONS, FORCE MAINS, PUMPING STATIONS, STORM SEWER EXTENSIONS AND ROADWAY CONSTRUCTION AS SET FORTH IN A MANUAL PREPARED BY CKS ENGINEERS, INC.; AND REPEALING ANY EXISTING CONSTRUCTION AND MATERIAL SPECIFICATIONS INCONSISTENT THEREWITH

Be it ordained by the Board of Supervisors of the Worcester Township as follows:

SECTION 1. ADOPTION OF CONSTRUCTION AND MATERIAL SPECIFICATIONS.

Worcester Township hereby adopts and incorporates into the Worcester Township Subdivision and Land Development Code, as if expressly set forth in full therein, a document entitled "Standard Construction and Material Specifications for Sanitary Sewer Extensions, Force Mains, Pumping Stations, Storm Sewer Extensions and Roadway Construction", prepared by CKS Engineers, Inc. of Doylestown, Pennsylvania which document bears a date of 1998 and a reference number of 7200-55. True and correct copies of this document shall be available in the Office of Worcester Township for reference and/or purchase.

SECTION 2. FUTURE SUPPLEMENTATION AND REVISION.

The document being adopted by this Ordinance and more fully described in Section 1 above, may be amended, corrected, supplemented and revised from time to time, as deemed necessary by the Board of Supervisors, by the passage of a duly adopted Resolution of the Board of Supervisors.

SECTION 3. INCONSISTENT ORDINANCES REPEALED.

All Worcester Township ordinances and provisions of the Worcester Township Code inconsistent with the document being adopted herein, as it may be amended from time to time, are hereby repealed.

SECTION 4. PROVISIONS SEVERABLE.

The provisions of this Ordinance are severable and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not affect or impair the remaining sections, sentences, clauses, parts or provisions of this Ordinance. It is hereby declared to be the intent of this Board that this Ordinance would have still been adopted even if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

SECTION 5. DATE OF EFFECT

That the Secretary shall certify to the adoption of this Ordinance and cause the same to be published as required bylaw; and this Ordinance shall take full effect five (5) days after this date of final passage and approval.

ORDAINED and **ENACTED** this 17th day of February, 1999 by the Worcester Township Board of Supervisors.

ORDINANCE NO. 99-169

WORCESTER TOWNSHIP

MONTGOMERY COUNTY, PENNSYLVANIA

AN ORDINANCE AMENDING THE CODE OF THE TOWNSHIP OF WORCESTER CHAPTER 130 (SUBDIVISION AND LAND DEVELOPMENT), ARTICLE VI (PLAN REQUIREMENTS), TO ADD A NEW SECTION 130-32.3 ENTITLED SKETCH PLANS, AND SETTING FORTH A SKETCH PLAN SUBMISSION POLICY, PLAN CONTENTS AND TOWNSHIP PLANNING COMMISSION REVIEW PROCEDURES FOR SKETCH PLANS.

The Board of Supervisors of Worcester Township does hereby enact and ordain:

SECTION 1 - AMENDMENT OF THE CODE

Chapter 130 (Subdivision and Land Development), Article VI (Plan Requirements) is hereby amended by adding a new section 130-32.3 entitled "Sketch Plans" and providing as follows:

§ 130-32.3 Sketch Plans.

A. Submission Policy.

(1) Applicants for subdivision and/or land development approval are strongly encouraged to submit a sketch plan to enable the Planning Commission to provide informal advice and guidance to an applicant prior to the preparation of preliminary plans.

B. Submission Requirements.

(1) Sketch Plans

- (a) Sketch plans shall be considered as submitted for informal discussion between the developer and the Planning Commission. Submission of a sketch plan does not constitute submission of an application for approval of a subdivision or land development plan.
- (b) For informational purposes, fourteen (14) copies of the sketch plan should be submitted to the Township Manager, For distribution to the Township Engineer, Planning Commission, board of Supervisors and the Montgomery county Planning Commission.

C. Plan Contents.

(1) Contents of Sketch plans shall be drawn legibly to scale but not necessarily showing precise dimensions and shall show at least the following information:

- (a) Name of subdivision or land development and name of municipality.
- (b) A location plan showing the subject tract and the surrounding road network; including a key map.
- (c) Name and address of the owner, agent, engineer, surveyor and architect, as applicable.
- (d) The tract boundary and location by deed plotting.
- (e) A north point and scale.
- (f) The existing and proposed road and lot (or structure layout).
- (g) Significant topological and physical features, such as soils, floodplains, possible areas of wetlands, creeks or streams, steep slopes (over 10%). Woodlands and existing structures.
- (h) Areas to be reserved for storm water runoff control.
- (i) Areas to be reserved for community facilities, open space, trails, etc.
- (j) Any additional information that the applicant believes will help explain the proposal. It is to the applicant's advantage to show as much information as possible. Although the Planning Commission will discuss any plan presented, a lack of significant information may result in little useful guidance to the applicant.

D. Review Procedures.

(1) Sketch Plan Review.

- (a) Sketch plans should be presented to the Township Planning Commission for informal discussion at a regularly scheduled Planning Commission meeting, following a request made to the Township Zoning Officer or Township Manager to be placed on the agenda.
- (b) The purpose of a sketch plan submission is to provide informal advice and guidance to an applicant prior to preparation of preliminary plans, and therefore, it does not constitute a formal plan submission and is not subject to the time limits for review established by the Municipalities Planning Code. The Planning Commission will nevertheless attempt to provide an Applicant with their comments on the sketch plan as quickly as is reasonably possible.
- (c) The Township Planning Commission may make non-binding suggestions and recommendations to the applicant during the meeting at which the plan is discussed. These need not be presented in writing to the applicant. However, suggestions should be summarized in the minutes of the Township Planning Commission for reference.
- (d) If a proposal is large or complex, the Township Planning Commission may defer completing its comments and recommendations until it has consulted its technical advisors. However, the Planning Commission will try to expedite this informal review process.
- (e) The applicant may, if desired request further review of the sketch plan by the Board of Supervisors. If further review is requested, the Board, after considering the written recommendations of the Planning Commission, all other agencies, and the Township Engineer, shall advise the applicant as to plan modifications it shall deem necessary or advisable.
- (f) Applicants may submit more than one sketch plan for a project (i.e. alternative plans) and may submit revised sketch plans after receiving initial comments on a sketch.
- (g) The Planning Commission's approval of a sketch plan is not intended to create any vested rights for the property or the developer within the meaning of the Municipalities Planning Code. Rather, the sketch plan process is intended to provide the applicant with an insight to the Planning Commission's

likely response to discretionary planning decisions and optional layouts for the proposed development before the significant engineering expense associated with a preliminary plan has been incurred. Subdivision and land development applicants who choose to proceed without first obtaining Planning Commission reaction to a sketch plan may risk a greater possibility of a request for redesign of a submitted preliminary plan.

SECTION 2 - REPEALER

The Worcester Board of Supervisors, by virtue of this Ordinance, hereby repeals all other portions of any prior Ordinance or Resolutions of the Township insofar as they are inconsistent with this Ordinance.

SECTION 3 - DISCLAIMER

Nothing in this Ordinance shall be construed to affect any suit or proceeding pending in any court, or any rights acquired or liabilities incurred, or any permit issued, or cause or causes of action existing under the Ordinances of the Township prior to the enactment of this Ordinance.

SECTION 4 - SEVERABILITY

The provisions of this Ordinance are severable, and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not affect or impair the remaining sections, sentences, clauses, parts or provisions of this Ordinance. It is hereby declared to be the intent of this Board that this Ordinance would have been adopted even if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

SECTION 5 - FAILURE TO ENFORCE NOT A WAIVER

The failure of the Township to enforce any provision of this Ordinance shall not constitute a waiver by the Township of its rights of future enforcement hereunder.

SECTION 6 - EFFECTIVE DATE

This Ordinance shall take effect and be in force from and after its approval as required by the law.

AN ORDINANCE OF WORCESTER TOWNSHIP AMENDING THE CODE OF THE TOWNSHIP OF WORCESTER, CHAPTER 150 (ZONING), ARTICLE XXV (ADMINISTRATION) TO ADD A NEW SECTION PROVIDING FOR THE EXPIRATION OF CONDITIONAL USES UPON FAILURE TO OBTAIN A BUILDING PERMIT WITHIN ONE YEAR OF THE GRANT OF THE CONDITIONAL USE, FAILURE TO SEEK SUBDIVISION/LAND DEVELOPMENT APPROVAL WITHIN SIX MONTHS OF THE GRANT OF THE CONDITIONAL USE OR FAILURE TO OBTAIN A BUILDING PERMIT WITHIN SIX MONTHS OF THE DATE OF LAND DEVELOPMENT APPROVAL; AND FURTHER AMENDING CHAPTER 150 (ZONING), ARTICLE XXVI (ZONING HEARING BOARD) SECTION 150-225 TO ADD NEW PROVISIONS TO ESTABLISH THE EXPIRATION OF SPECIAL EXCEPTIONS OR VARIANCES FOR FAILURE TO SEEK SUBDIVISION/LAND DEVELOPMENT APPROVAL WITHIN SIX (6) MONTHS OF THE GRANT OF THE SPECIAL EXCEPTION OR VARIANCE OR FAILURE TO OBTAIN A BUILDING PERMIT WITHIN SIX (6) MONTHS OF THE DATE OF ANY LAND DEVELOPMENT APPROVAL.

The Board of Supervisors of Worcester Township does hereby enact and ordain:

SECTION I – Amendment of the Code.

Chapter 150. (Zoning, Article XXV) Administration is hereby amended to include a new

Section 150-215.1, as follows:

Section 150-215.1 Expiration of Conditional Uses.

Unless otherwise specified in the decision of the Board of Supervisors, a Conditional Use shall expire if the applicant fails to obtain a building permit in connection therewith within one year of the date of the order of the Board or court granting such conditional use. In those instances where land development or subdivision approval is a necessary prerequisite prior to obtaining a building permit, the conditional use shall expire if the applicant fails to make a diligent effort to obtain such approval within six (6) months following the date of

conditional use approval. Upon receipt of land development approval, the conditional use shall expire if a building permit is not obtained within six (6) months of the date of land development approval.

SECTION II – Amendment to the Code

Section 150-225 (Expiration of special exceptions and variances) shall be amended to add the following two sentences immediately after the last sentence of the existing section:

In those instances where land development/subdivision approval is a necessary prerequisite prior to obtaining a building permit, the special exception or variance shall expire if the applicant fails to make a diligent effort to obtain such approval within six (6) months following the date of approval. Upon receipt of land development approval, the special exception or variance shall expire if a building permit is not obtained within six (6) months of the date of the land development approval.

SECTION III - Disclaimer

Nothing in this Ordinance shall be construed to affect any suit or proceeding now pending in any court, or any rights acquired or liabilities incurred, or any permit issued, or any cause or causes of action existing under the Ordinances of the Township prior to the enactment of this Ordinance.

SECTION IV - Severability

The provisions of this Ordinance are severable, and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not affect or impair the remaining sections, sentences, clauses, parts or provisions of this Ordinance. It is hereby declared to be the intent of the Board that this Ordinance would have been adopted even if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

SECTION V - Failure to Enforce Not a Waiver

The failure of the Township to enforce any provision of this Ordinance shall not constitute a waiver by the Township of its rights of future enforcement hereunder.

ORDINANCE NO. 99-172

AN ORDINANCE AMENDING THE WORCESTER TOWNSHIP CODE, CHAPTER 122 (SEWERS), TO ADD A NEW ARTICLE VI TO ESTABLISH THE FAIRVIEW VILLAGE SEWER DISTRICT AND SET FORTH RATES AND CHARGES, COMPUTATION OF CHARGES, METER READINGS, BILLING PROCEDURES AND SEWAGE CHARGES AS LIENS.

The Board of Supervisors of Worcester Township does hereby enact and ordain:

SECTION I

Chapter 122 of the Worcester Township Code (Sewers) is hereby amended to add a new Article VI establishing the Fairview Village Sewer District as follows:

**ARTICLE VI
Fairview Village Sewer District**

§122-39. Establishment of district.

There is hereby established a separate sewer district in Worcester Township which shall be comprised of the residential, commercial, office and all other authorized properties utilizing the Berwick Place Wastewater Treatment Plant and shall be known as the "Fairview Village Sewer District."

§122-40. Residential rates and charges.

All dwelling units and other residential uses within the Fairview Village Sewer District shall be charged uniform rates and charges on a quarterly basis in accordance with Article II of this Chapter.

§122-41. Non-residential and mixed use rates and charges.

- A. For all non-residential and mixed use properties within the Fairview Village Sewer District, the sewer rates and charges shall be based on water consumption records for the preceding month, or quarter at the Township's

discretion, as recorded by the public water source utilized by the property owner.

- B. In those cases where properties secure water from wells or from sources other than a water company, the Township Engineer shall estimate the water consumed by said properties by utilizing standard accepted water usage factors as established for similar type facilities. In lieu of the water consumption estimate of the Township Engineer, the property owner may, at its own expense, install a water meter to measure water consumption on the premises, which meter specifications and installation location shall be approved by the Township. When installing such a water meter, the property owner shall grant access to the Township for meter reading.
- C. The quarterly sewer rental rate or charge shall be calculated on the total water consumption. A minimum charge of Five Dollars and 40/100 (\$5.40) for each one thousand (1,000) gallons of metered water consumed on the premises is hereby imposed upon all non-residential, or mixed use owners or their successors in title payable as herein provided, which shall be collected by Worcester Township in use for payment of the cost of operating and maintaining that portion of the Township's sewage collection and disposal system comprising the Fairview Village Sewer District and for a reserve fund sufficient for its future replacement.

§122.42. Billing procedures.

Bills for the sewage charges imposed hereby shall be rendered monthly or quarterly at the Township's discretion, and shall cover the billing period consisting of the immediately preceding quarterly Bills shall be due and payable on the billing date, and the appropriate amount computed in accordance with this Article shall constitute the net bill. If the charges are not paid within thirty (30) calendar days after each billing date, an additional sum of ten percent (10%) shall be added to such net bill, which net bill, plus such additional sum, shall constitute the gross bill. Payment made or mailed and postmarked on or before the first day of the end of such thirty-calendar-day period shall constitute payment within such period. If the end of such thirty-calendar-day period shall fall on a legal holiday or on a Saturday or Sunday, payment made or mailed and postmarked on the next succeeding day which is not a legal holiday shall constitute payment within such period. Any bill not paid within said thirty-calendar-day period shall be deemed delinquent.

§122.43. Liens.

The sewage charges imposed by this Article shall be a lien upon all real property within the Fairview Village Sewer District; and any such charges which are delinquent shall be filed as a lien against said property, which lien shall be filed in the office of the Prothonotary of Montgomery County, Pennsylvania, and shall be collected in the manner provided by law for the filing and collecting of municipal claims. Interest collective on liens filed by the

Township shall accrue at the rate of ten percent (10%) per annum from the date of the filing of the lien until paid.

§122.44 - Adoption of Additional Rules and Regulations.

The Township reserves the right to adopt, from time to time, such additional rules and regulations as it shall deem necessary and proper in connection with the use and operation of the sewer system, which rules and regulations shall be, shall become and shall be construed as part of this Article.

SECTION II – DISCLAIMER

Nothing in this Ordinance shall be construed to affect any suit or proceeding now pending in any court, or any rights acquired or liabilities incurred, or any permit issued, or any cause or causes of action existing under the Ordinances of the Township prior to the enactment of this Ordinance.

SECTION III – SEVERABILITY

The provisions of this Ordinance are severable, and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not affect or impair the remaining sections, sentences, clauses, parts or provisions of this Ordinance. It is hereby declared to be the intent of the Board that this Ordinance would have been adopted even if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

SECTION IV - FAILURE TO ENFORCE NOT A WAIVER

The failure of the Township to enforce any provision of this Ordinance shall not constitute a waiver by the Township of its rights of future enforcement hereunder.

SECTION V - EFFECTIVE DATE

This Ordinance shall take effect and be in force from and after its approval as required by the law.

The Board of Supervisors of Worcester Township does hereby enact and ordain:

SECTION I - Amendment of the Code.

Section 150-201 of the Worcester Township Zoning Ordinance (Home Occupations) is hereby deleted in its entirety.

SECTION II - Amendment to the Code.

A new Section 201-150 shall be added to the Code as follows:

Section 150-201: Home Occupations.

Home occupations shall meet the following requirements.

A. Home occupations shall be in accordance with the following criteria:

Home occupations are permitted by special exception in all single family detached, residential dwellings and must meet the following criteria:

1. Subject only to the exception set forth in sub-paragraph (A)(2) below, the home occupation shall be conducted solely by resident occupants of the residential dwelling.
2. No more than one (1) additional person (not a resident in the dwelling) shall be employed by the practitioner of the home occupation to provide secretarial, clerical or other similar assistance.
3. The home occupation does not generate the need for any more than two parking spaces in excess of those required for the residence.
4. The home occupation does not have a sign.
 - (a) a home occupation shall not be considered a lawful accessory use entitled to signage pursuant to §150-148A of this Chapter.

B. All home occupations shall meet the following standards:

1. No more than five hundred (500) square feet of the area or the equivalent of one-half of the first floor area of the dwelling, whichever is smaller, may be used for the home occupation.
2. Home occupations must be conducted entirely within the dwelling.
3. The home occupation shall not have any business related exterior storage or display of goods and/or merchandise.
4. The home occupation shall not alter the exterior of the dwelling.
5. The conducting of a retail or wholesale business, clinic, hospital, barber shop, realtor, beauty parlor, or other personal service shop, restaurant, motel, hotel, animal hospital, mortuary, or any similar use shall not be deemed to be a home occupation.

6. The operation of a family day care home and/or group day care home shall not be considered a home occupation.
7. There shall be no deliveries to or from a home occupation from a vehicle with more than two (2) axles.
8. No home occupation shall require trash pick-up in excess of that required normally in single family detached residential areas.
9. The use of noxious, combustible, explosive or other materials that would endanger the health and safety of the occupants and surrounding residents are prohibited.
10. No occupational sounds shall be audible outside the dwelling.
11. No machinery or equipment shall be used which will cause interference with the radio or television reception of neighboring residences.
12. No retail sales are to be conducted in person on the premises. Sales by telephone or via the internet are permitted provided no other criteria or standard of this section is violated.
13. A "home office" is not subject to these regulations and is defined as office use by a resident occupant primarily involving paperwork and the use of telephone or computer and not including:
 - (a) Deliveries
 - (b) Employees
 - (c) Business related visits to the property by any non-resident
 - (d) Storage of inventory or equipment of any kind
 - (e) Parking of business trucks or equipment on the property or within any building on the property.

SECTION III - Disclaimer

Nothing in this Ordinance shall be construed to affect any suit or proceeding now pending in any court, or any rights acquired or liabilities incurred, or any permit issued, or any

cause or causes of action existing under the Ordinances of the Township prior to the enactment of this Ordinance.

SECTION IV - Severability

The provisions of this Ordinance are severable, and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not affect the remaining sections, sentences, clauses, parts or provisions of this Ordinance. It is hereby declared to be the intent of the Board that this Ordinance would have been adopted even if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

SECTION V - Failure to Enforce Not a Waiver

ORDINANCE NO. 99-174

A PROPOSED ORDINANCE TO AMEND THE WORCESTER TOWNSHIP ZONING MAP TO REZONE THE PROPERTY KNOWN AS THE HUGANIR PROPERTY, 1038 WINDY HILL ROAD, WORCESTER TOWNSHIP, FROM ITS PRESENT CLASSIFICATION AS AGR-AGRICULTURAL TO A NEW CLASSIFICATION OF R-100 RESIDENTIAL DISTRICT

The Board of Supervisors of the Worcester Township hereby adopts an ordinance amending the official zoning map of Worcester Township as follows:

Section 1. Zoning Map Amendment

The zoning district designation of that certain tract known as the Huganir Property, located at 1038 Windy Hill Road, Worcester Township, Montgomery County, being Parcel No. 67-00-04162-00-1 is hereby changed from its current designation of "AGR" Agricultural District to the designation of "R-100" Residential District.

Section 2. Provisions Severable

The provisions of this ordinance are severable, and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not effect or impair the remaining sections, sentences, clauses, parts or provisions of the ordinance. It is hereby declared to be the intent of the board that this ordinance would have been adopted as if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

Section 3. Disclaimer

Nothing in this ordinance shall be construed to effect any suit or proceeding pending in any court, or any rights acquired or liability incurred, or any permit issued, or any cause or causes of action existing under the ordinances of the Township of Worcester prior to enactment of this ordinance.

Section 4. Repealer

All other ordinances or resolutions or parts thereof insofar as they are inconsistent with this ordinance are hereby repealed.

Section 5. Effective Date

This ordinance shall take effect and be in force from and after its approval as required by law.

ORDAINED AND ENACTED, by the Board of Supervisors of Worcester Township, Montgomery County, Pennsylvania, this 20th day of October, A.D., 1999.

**WORCESTER TOWNSHIP
BOARD OF SUPERVISORS**

MONTGOMERY COUNTY, PENNSYLVANIA

ORDINANCE NO. 99-176

AN ORDINANCE TO AMEND THE CODE OF THE TOWNSHIP OF WORCESTER, CHAPTER 150 (ZONING), BY DELETING IN ITS ENTIRETY THE EXISTING ARTICLE IV (AGR AGRICULTURAL DISTRICT), SECTIONS 150-10 THROUGH 150-17, INCLUSIVE, AND REPLACING IT WITH A NEW ARTICLE IV ENTITLED "AGR AGRICULTURAL DISTRICT"; SETTING FORTH THE NEW LEGISLATIVE INTENT; USE REGULATIONS; LOT AREA AND WIDTH REGULATIONS; YARD REGULATIONS; COVERAGE REGULATIONS; HEIGHT REGULATIONS; PARKING REGULATIONS; SPECIAL REQUIREMENTS INCLUDING SIGNS, DRIVEWAYS, LOT LAYOUT, NON-DWELLING STRUCTURES, DETENTION BASINS AND APPLICATION PROCEDURE; AMENDING ARTICLE III OF THE ZONING CODE (TERMINOLOGY), SECTION 150-9 (DEFINITIONS) TO INCLUDE DEFINITIONS FOR "BUILDING HEIGHT", "COUNTRY CLUB", "DAY CAMP", "FARM MARKET", "PLACE OF RELIGIOUS WORSHIP" AND "RESIDENTIAL LIFE CARE FACILITY"; AMENDING ARTICLE XVI OF THE ZONING CODE (R-50 DISTRICT) BY ADDING A NEW SUBPARAGRAPH G TO SECTION 150-107 (USE REGULATIONS) TO INCLUDE NURSING HOMES, PERSONAL CARE FACILITIES AND LIFE CARE FACILITIES; AMENDING ARTICLE XXVII OF THE ZONING CODE (C COMMERCIAL DISTRICT) SECTION 150-112.I (SPECIAL EXCEPTIONS) TO INCLUDE NURSING HOMES, PERSONAL CARE FACILITIES, LIFE CARE FACILITIES AND HOSPITALS AS USES PERMITTED BY SPECIAL EXCEPTION.

The Board of Supervisors of Worcester Township does hereby enact and ordain:

SECTION I. Amendment to the Code.

The Code of Worcester Township, Article IV (AGR Agricultural District) is hereby amended by deleting the existing Article IV, Sections 150-10 through 150-17 (inclusive) in its entirety and replacing it with a new Article IV, Sections 150-10 through 150-17 inclusive as follows:

ARTICLE IV
AGR Agricultural District

Section 150-10. Legislative Intent

In expansion of the legislative intent and community development objectives contained in Article I, Sections 150-2 and 150-3, of this chapter and in support of the goals and recommendations of the Worcester Township Comprehensive Plan, it is the intent of the Article to:

- A. Preserve agricultural land and open space areas of Worcester.
- B. Allow agricultural, institutional, and low density single-family detached development to co-exist in a manner that limits the impact of each use on the other.
- C. Buffer residential development from agricultural uses and existing roads.
- D. Limit the adverse environmental impacts of development on the township's steep slopes, floodplains, streams, wetlands, woodlands, riparian corridors, and groundwater.
- E. Preserve the township's historic, rural character and heritage.
- F. Limit the impact of development traffic on the township's major roads.

Section 150-11. Use Regulations

A building may be erected or used and a lot may be occupied for any of the following purposes, and no other:

- A. Agriculture.
- B. A single-family detached dwelling. Single-family detached dwellings may be developed in accordance with the requirements of Article IV or, as a conditional use, may be clustered in accordance with the requirements of Article XVIIA, the RPD Rural Preservation District.
- C. Accessory uses in accordance with Article XXIV.
- D. Any one (1) of the following uses shall be permitted when authorized as a conditional use by the township Board of Supervisors, subject to the provisions in section 150-215, all applicable requirements of the AGR district, and the specific standards listed below:
 - (1) Any country club, provided the use is located on a lot fifty (50) acres or larger, building coverage does not exceed two percent (2%) of the net lot

area and impervious coverage does not exceed five percent (5%) of the net lot area.

- (2) Public or private schools, provided the use is located on a lot twenty five (25) acres or larger, building coverage does not exceed fifteen percent (15%) of the net lot area and impervious coverage does not exceed thirty percent (30%) of the net lot area and provided a safe and efficient off-street passenger drop-off/pick-up area is provided.
- (3) Non-commercial playing fields, parks, playgrounds, passive recreation areas, nature preserves, forest preserves, and nature centers, providing the use is located on a lot ten (10) acres or larger, building coverage does not exceed one percent (1%) of the net lot area, and impervious coverage does not exceed five percent (5%) of the net lot area.
- (4) Place of religious worship, provided the use is located on a lot twenty five (25) acres or larger, building coverage does not exceed ten percent (10%) of the net lot area and impervious coverage does not exceed thirty percent (30%) of the net lot area and such facility may also be used on a daily basis for Sunday school, pre-school and day care purposes.
- (5) Day camp, provided the use is located on a lot twenty five (25) acres or larger, the building coverage does not exceed one percent (1%) of net lot area and impervious coverage does not exceed two percent (2%) of the net lot area.
- (6) A farm market or roadside stand for the retail sale of produce, plants and dairy products may be permitted, subject to the following provisions:
 - (a) Minimum site size. Twenty five (25) acres shall be the minimum size parcel on which a farm market or roadside stand may be erected or operated.
 - (b) Ownership. The farm market or roadside stand must be owned and operated by the owner or the immediate family of the owner of the parcel of land.
 - (c) Maximum site utilization.
 - (i) The maximum amount of land that may be used for the farm market or roadside stand shall be limited to five percent (5%) of the developable area of the site not to exceed 7.5 acres. This includes parking.
 - (ii) The balance of the land shall remain undeveloped, except for active farming, passive open space or one single-family dwelling. The sale, development or use of the balance of the land in any way that would result in the violation of

these requirements shall result in the termination of the conditional use approval and require the cessation of all farm market or roadside stand activity.

- (d) Master plan. All development and use shall be in strict accordance with the detailed Master Plan as approved by the Board of Supervisors, which shall be kept on file in the township. Any proposed deviation or addition to that plan must be presented to the Board of Supervisors at a public hearing for approval. Such approved revision shall go on record as the approved revised Master Plan.
- (e) Setbacks. Any and all activity of the farm market or roadside stand shall be set back a minimum of two hundred fifty (250) feet from any ultimate right-of-way line of a street. All parking related to such use shall be set back a minimum of forty (40) feet from any ultimate right-of-way line of a street.
- (f) Buffers. A buffer screen shall be provided between this use and any adjacent single-family residential use. The setback at the frontage of this shall be landscaped.
- (g) Signs. Signs shall be regulated in accordance with the provisions of Article XXI

F. Municipal use, as defined in Article III.

Section 150-12. Lot Area and Width Regulations

- A. Minimum lot area. Eighty thousand (80,000) square feet shall be the minimum lot area that shall be provided for every building or use.
- B. Minimum lot width. All lots shall meet the following lot width requirement:
 - (1) Two hundred fifty (250) feet shall be the minimum lot width for every building or use.
 - (2) Lots which front secondary collector or primary streets (highways) shall have a minimum lot width measured at both the building and street lines, of at least two hundred fifty (250) feet for every building or use. Flag lots shall not be permitted along collector or primary streets.

Section 150-13. Yard regulations

A. Single-family detached uses.

- (1) Front yard. All lots shall meet the following front yard setback requirements measured from the ultimate right-of-way:
 - (a) Seventy five (75) feet shall be the minimum size of front yards measured from local streets, which include marginal access, rural, residential, and cul-de-sac streets.
 - (b) Seventy five (75) feet shall be the minimum size of front yards measured from secondary feeder streets.
 - (c) One hundred (100) feet shall be the minimum size of front yards measured from secondary collector or primary streets (highways).
 - (d) One hundred (100) feet shall be the minimum size of front yards measured from scenic roads, as identified in the township's current Comprehensive Plan.
 - (e) Dwellings that existed as of the date of adoption of this revised AGR district that do not comply with the required front yard setback of the AGR district may be expanded to the side or rear of the dwelling as a matter of right, provided the expansion will comply with the side and rear yard setbacks of the AGR district and the building and impervious coverage standards in the AGR district. In no case shall an expansion be permitted to extend closer to the road ultimate right-of-way than the non conforming front wall of the existing dwelling closest to the road.
- (2) Rear yard.
 - (a) One hundred (100) feet shall be the minimum size of the rear yard on each lot.
 - (b) A separate detached structure accessory to a single-family residential use may be erected in the rear yard not closer to the rear or side property lines than forty (40) feet.
- (3) Side yards.
 - (a) Fifty (50) feet shall be the minimum size of each of two (2) side yards on each lot.
 - (b) Corner lots shall be regulated by Article XXIV.

B. Nonresidential uses.

All nonresidential uses shall be governed by the following yard requirements:

- (1) One hundred fifty (150) feet shall be the minimum size of front, side, and rear yards for religious and agricultural buildings.
- (2) Two Hundred Fifty (250) feet shall be the minimum size of front yards and one hundred twenty-five (125) feet shall be the minimum size of side and rear yards for all structures except single-family detached, religious, and agricultural uses.
- (3) In no case shall the minimum yard area for any use be smaller than the minimum yard area required for single-family detached homes, as specified in section 150-13A.

Section 150-14 Coverage regulations

- A. Building Coverage. Ten percent (10%) shall be the maximum total building coverage on residential, municipal or agricultural use lots.
- B. Impervious coverage. Twenty percent (20%) shall be the maximum total impervious coverage on residential, municipal or agricultural use lots.

Section 150-15 Height regulations

Building height. Thirty (30) feet, not exceeding two and five tenths (2.5) stories, shall be the maximum height for any building or other structure erected or enlarged in this district, except as noted below:

- A. Fifteen (15) feet, not exceeding one and five tenths (1.5) stories, shall be the maximum height for any structure accessory to a single-family detached dwelling.
- B. Sixty (60) feet shall be the maximum height for silos used to store ensilage.
- C. Eighty five (85) feet shall be the maximum height for steeples and/or bell towers of places of worship

Section 150-16 Parking regulations

- A. Single-family detached residential parking.
 - (1) For each dwelling in this district, two (2) all weather off-street parking spaces shall be provided in accordance with the applicable provisions of Article XXII.
 - (2) Setbacks. No parking area or driveway shall be located within fifteen (15) feet of any property line except as required for normal ingress and egress.

B. Nonresidential parking.

- (1) For any uses other than single-family detached residential uses in this district, off-street parking and loading facilities shall be provided in accordance with Article XXII. Further, such parking shall not occupy any of the front, side or rear yards required under this Article.
- (2) Setbacks. No parking area or driveway shall be located within one hundred (100) feet of any property line for any use except as required for normal ingress and egress.

Section 150-17 Special requirements

- A. Signs. Signs shall be permitted in accordance with the applicable provisions of Article XXI.
- B. Driveways. Along secondary collector and primary streets (highways), driveways for all uses shall be located at least three hundred (300) feet from street intersections and other driveways on the same side of the street, unless the township Board of Supervisors determines that a shorter distance between driveways is safer or that meeting the three hundred (300) foot setback is physically infeasible.
- C. Lot layout. All AGR subdivisions shall be laid out in a manner that minimizes the number of new driveway access points onto existing roads. Subdivisions may take advantage of new roads, common driveways, and other means found acceptable to the township to meet this requirement. It shall be incumbent on applicants to demonstrate to the township Board of Supervisors that the number of new driveway access points onto existing roads have been reduced to the greatest extent possible.
- D. Non-dwelling structures. Swimming pools, tennis courts and domestic animal shelters may be permitted in this district subject to the applicable regulations under Article XXIV, General Regulations.
- E. Additional regulations. Lots in this district shall be subject to modified and/or additional regulations under Article XXIV, General Regulations, as applicable.
- F. Detention basins in yard areas. Detention basins shall be allowed in yard areas only in accordance with the applicable regulations under Article XXIV, General Regulations.
- G. Application procedure. The procedure for making application for uses other than single-family detached residential uses shall be in accordance with section 150-202 of Article XXIV, General Regulations, and section 150-214 of Article XXV, Administration.

SECTION II. Amendment to the Code.

The Code of Worcester Township, Article III (Terminology), Section 150-9 (Definitions) is hereby amended by adding the following new definitions:

BUILDING HEIGHT - The vertical distance of a building measured from the average elevation of the finished grade surrounding the building to the average height of the highest roof surface provided that chimneys and other similar projections not exceeding 10 feet above the roof surface shall not be included in the height.

COUNTRY CLUB - Land area and buildings that contain a golf course(s) and may contain tennis courts and pools, a clubhouse, and/or other customary accessory uses.

DAY CAMP - A facility for children with organized and supervised recreational facilities such as swimming, horseback riding, etc. with no boarding of patrons.

FARM MARKET - A booth, stall, or building located on a farm from which produce, plants, dairy products, and farm products grown or produced on the site are sold to the general public.

PLACE OF RELIGIOUS WORSHIP - A building or structure, or a group of buildings or structures, that are primarily used for organized religious services.

RESIDENTIAL LIFE CARE FACILITY - A residential development restricted to the elderly that provides a continuum of accommodations and care, from independent living units to personal care and nursing homes. Independent living units are dwelling units located within a residential life care facility.

SECTION III. Amendment to the Code.

The Code of Worcester Township, Article XVI (R-50 District) Section 150-107 (Use Regulations) is hereby amended by adding the following new subparagraph:

G. Nursing homes, personal care facilities and life care facilities.

SECTION IV. Amendment to the Code.

The Code of Worcester Township, Article XVII (C Commercial District) Section 150-112.I (Special Exceptions) is hereby amended by adding the following new subsections:

(11) Nursing homes, personal care facilities, and life care facilities.

(12) Hospitals.

SECTION V. Disclaimer.

Nothing in this Ordinance shall be construed to affect any suit or proceeding now pending in any court, or any rights acquired or liabilities incurred, or any permit issued, or any cause or causes of action existing under the Ordinances of the Township prior to the enactment of this Ordinance.

SECTION IV. Severability.

The provisions of this Ordinance are severable, and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not affect or impair the remaining sections, sentences, clauses, parts or provisions of this Ordinance. It is hereby declared to be the intent of the Board that this Ordinance would have been adopted even if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

SECTION V. Failure to Enforce Not a Waiver.

The failure of the Township to enforce any provision of this Ordinance shall not constitute a waiver by the Township of its rights of future enforcement hereunder.

SECTION VI. Effective Date.

This Ordinance shall take effect and be in force from and after its approval as required by the law.

ORDAINED AND ENACTED by the Board of Supervisors of Worcester Township,
Montgomery County, Pennsylvania, this 15th day of December, 1999.

WORCESTER TOWNSHIP
BOARD OF SUPERVISORS

MONTGOMERY COUNTY, PENNSYLVANIA

ORDINANCE NO. 99- 177

AN ORDINANCE AMENDING THE CODE OF THE TOWNSHIP OF WORCESTER, CHAPTER 130 (SUBDIVISION AND LAND DEVELOPMENT), ARTICLE V (DESIGN STANDARDS), SECTION 130-28 (LANDSCAPING) BY DELETING THE EXISTING SECTION 130-28 IN ITS ENTIRETY AND REPLACING IT WITH A NEW SECTION 130-28 ENTITLED "LANDSCAPING"; SETTING FORTH THE LEGISLATIVE INTENT; APPLICATION OF LANDSCAPING DESIGN STANDARDS; DEFINITIONS; LANDSCAPE PLAN SUBMISSION REQUIREMENTS; SUBMISSION PROCEDURE; REQUIRING CERTAIN PRESERVATION OF EXISTING VEGETATION AND NATURAL FEATURES; LANDSCAPE REQUIREMENTS; RECOMMENDED PLANT MATERIALS FOR CANOPY TREES; UNDERSTORY TREES; EVERGREEN TREES AS FOR BUFFERS; SHRUBS; OTHER BUSHES AND PLANTS AND SETTING FORTH THE REQUIREMENT FOR THE POSTING OF FINANCIAL SECURITY FOR PLANTS AND LANDSCAPING.

The Board of Supervisors of Worcester Township does hereby enact and ordain:

SECTION I. Amendment to the Code.

The Code of Worcester Township, Chapter 130 (Subdivision and Land Development) Article V (Design Standards) Section 130-28 (Landscaping) is hereby amended by deleting the existing Section 130-28 in its entirety and replacing with a new Sections 130-28 as follows:

Section 130-28. Landscaping

A. Intent.

(1) The intent of this section is to provide landscaping requirements applicable to all land development in order to promote groundwater recharge, to stimulate air purification and oxygen regeneration, to provide for noise abatement, to retard erosion and sedimentation and to otherwise maintain the township's natural amenities.

(2) Article I, Section 27 of the Constitution of the Commonwealth of Pennsylvania states that people have a right to clean air, pure water, and to the preservation of the natural, scenic, historic, and aesthetic values of the environment. It is

the intent of these landscape requirements to protect this right by conserving existing vegetation and/or requiring new plant material in critical areas of land developments.

Further, it is the intent of these landscape requirements to protect the health, safety and welfare of Worcester by promoting sound landscape design standards and practices which take into account the horticultural requirements of individual plant species, aesthetic characteristics and safety considerations of landscaping plans.

Specifically, it is the intent of these landscape requirements to preserve existing healthy plant communities such as woodlands and to require new landscape plantings in critical areas of new developments in order to:

1. Reduce soil erosion by minimizing stripping of existing woodlands or tree masses hereby preserving existing soil and protecting Worcester's water quality.
2. Reduce storm water runoff velocity and quantity by preserving and providing planting areas where runoff velocities are reduced and storm water can infiltrate, ultimately recharging local ground water supplies.
3. Improve air quality by conserving existing or creating new plantings that produce oxygen and remove carbon dioxide from the atmosphere.
4. Provide habitat for wildlife such as small mammals and birds
5. Provide windbreaks, shade and other microclimate benefits of trees and landscape plantings.
6. Conserve historically, culturally, or environmentally important landscapes such as wooded hillsides, scenic views, or aesthetic natural areas.
7. Preserve and enhance property values of Worcester through the implementation of good landscape architectural standards.
8. Provide planted buffers between land developments that act to visually integrate developed areas into the existing landscape.
9. Preserve or provide planted and architectural visual screens around visually obtrusive site elements within areas to be developed.
10. Enhance the aesthetic appearance of the community and provide privacy and beauty.
11. Conserve energy through moderating solar radiation (shade).

B. Application. This section shall apply to the following types of subdivision and land developments:

- (1) Single-family detached dwelling uses of more than one (1) building lot.
- (2) Multi-family residential uses.
- (3) Agricultural and residential-agricultural uses authorized by special exception or conditional use.
- (4) Shopping center and commercial uses.
- (5) Limited industrial uses.
- (6) Mobile home development and other residential alternative uses.

C. The provisions of this section are not intended to restrict existing residential owners from removing trees from their property nor to restrict the clearing of land for agricultural purposes.

D. Definitions.

BUFFER-- An area designed and functioning to separate the elements and uses of land(s) which abut it and to ease the transition between them.

CALIPER-- The diameter of a planting tree as measured at a point on the trunk six (6) inches above the ground surface.

CANOPY TREE -- In general canopy trees are those whose mature heights may exceed 50 Feet. In natural woodlands, such trees make up the uppermost layer of the forest.

DBH-- The diameter of a tree at breast height, measured four and one-half (4½) feet from the ground surface.

DRIPLINE-- A generally circular line, the circumference of which is determined by the outer reaches of a tree's branching points.

ENCROACHMENT-- Any physical action which may jeopardize the health and longevity of a natural feature as that term is describes in Subsection F (1).

GROUNDWATER RECHARGE-- Replenishment of geologic structures and rock and soil interstices which have the capacity to store water.

HEDGEROW-- A line or band of plants one hundred (100) feet or greater in length where seeds collect and are left undisturbed, such as along fence lines or property lines or between fields or that is specially planted, i.e. to act as a windbreak.

SPECIMEN TREE -- A plant worthy of preservation because of species, size, shape, form, historical importance or any other significant characteristic; including canopy trees over twenty (20) inches DBH and understory trees greater than six (6) inches DBH.

UNDERSTORY TREE -- Trees whose mature heights are generally less than 50 feet. In natural woodlands, understory trees occur below the upper layer canopy trees.

WOODLAND-- A stand of woody vegetation covering at least one (1) acre, predominantly trees of varying age or size and including at least fifty percent (50%) cover of trees at least six (6) inches DBH.

E. Landscape plan submission requirements.

(1) Tree survey plan.

(a) The township shall require the developer or subdivider to verify the presence of existing trees on a site by field investigation or by the use of aerial photographs. A separate tree survey plan at a scale of not less than one (1) inch to fifty (50) feet shall be submitted showing the location of existing live trees with a DBH of six (6) inches or more, except in large wooded areas which are not proposed to be disturbed. The edges of large wooded areas to be preserved shall be clearly delineated on the initial tree survey plan and all revisions.

(b) The tree survey plan shall include the following:

[1] Plan scale, date, north arrow, property lines and location map with zoning district designations for the site and adjacent properties.

[2] Existing contours at two-foot intervals.

[3] Individual freestanding trees with trunk diameters of six (6) inches DBH or greater, indicating the location and diameter of each tree.

[4] All trees meeting the definition of specimen tree shall be identified as such on the plan and shall be subject to the alternatives analysis as described in F(4).

[5] Trees in hedgerows or lines with trunk diameters of six (6) inches DBH or greater, indicating the outer canopy or drip line of the tree grouping.

[6] Trees in woodlands or groves with trunk diameters of six (6) inches DBH or greater, indicating the outer canopy or drip line of the tree grouping

[7] Designation of existing trees to remain and existing trees to be removed, either by indicating individual trunk diameters with an “x” for removal or by cross hatching or similar graphical method to indicate woodlands to be removed. Existing trees that are relocated on site shall be classified as existing trees to remain.

(c) When one or more existing trees six (6) inches DBH or greater are proposed to be removed by a plan of development, they shall be replaced as described in Subsection F(7)(a) and (b).

(d) The plan shall contain a schedule, listing trees over six (6) inches DBH and the quantity of existing trees to be removed. A schedule of the replacement trees indicating species, height, spread, caliper and quantity shall also be included on the tree survey plan or the final landscape plan.

(e) The tree survey plan and/or any of the above requirements may be waived by the township if it is found that the application will involve a de minimis impact on landscaping.

(f) On plans with wooded tracts greater than 5 contiguous acres proposed to be disturbed, an applicant may consider a sampling approach as an alternative to single tree counting of all live trees greater than six (6) inches DBH. However, the sampling methodology must be submitted to the Worcester Township Shade Tree Commission for approval prior to its application.

(2) Preliminary landscape plan. The preliminary landscape plan shall be drawn at a scale of not less than one (1) inch to fifty (50) feet and shall contain the following:

(a) Plan scale, date, north arrow, property lines and location map with zoning district designations for the site and adjacent properties.

(b) The location of all existing and proposed buildings.

(c) The location of all existing and proposed roads, parking, service areas and other paved roads.

(d) The location of all outside storage and trash receptacle areas.

(e) Sidewalks, berms, fences, walls, freestanding signs and site lighting.

(f) The location, common names, quantity and sizes of all proposed trees, shrubs and areas for lawns or other ground cover (see Subsection H, Recommended plant materials).

(g) A plant schedule indicating the botanical and common names, height, spread, caliper, quantity and any special remarks for all plant material proposed.

(h) If not provided on the tree survey plan, an enumeration of existing trees to remain, existing trees to be removed, existing and proposed water bodies and significant natural features.

(i) Existing and proposed contours at two-foot intervals; and, in order to determine the relationship of planting and grading, areas with slopes in excess of ten percent (10%) shall be indicated on the plan.

(k) Information in the form of notes or specifications concerning planting and areas to be devoted to lawns. Such information shall convey the proposals for seeding, sodding, ground cover, mulching and the like.

(3) Final landscape plan. The final landscape plan shall contain a final version of all plan requirements stated in Subsection F(2) below and shall further contain the following:

(a) Details for the planting and staking of trees, the planting of shrubs and any other details which depict other related installation.

(b) A detailed cost estimate shall be submitted as part of the final landscape plan submission, showing the value of all proposed landscaping, to include all labor, materials and guaranty.

(4) Submission procedure.

(a) The preliminary landscape plan and tree survey plan shall be submitted at the time the preliminary plan is filed. The final landscape plan shall be submitted at the time the final plan is filed.

(b) All landscape plans other than minor subdivisions shall be prepared by a landscape architect registered by the Commonwealth of Pennsylvania.

F. Preservation of existing vegetation and natural features.

(1) All subdivisions and land developments shall be laid out in such a manner as to minimize the removal of healthy trees and shrubs on the site. Special consideration shall be given to all specimen trees.

(2) For the purpose of this section, the term "natural features" shall mean such vegetation, soils, surface streams, ponds and wetlands, planting, specimen plants, trees and topography which exist on the site proposed to be developed prior to any development activity.

(3) In cases where natural features that exist and will be retained on site duplicate the planting requirements of Subsection G, any and all of such requirements may be waived by the township.

(4) It shall be incumbent upon the applicant to demonstrate that vegetation removal is avoided and minimized to the maximum degree possible by showing that no alternative layouts or alternative clearings or grading plan would reduce the loss of mature trees, tree masses or woodlands. This alternatives analysis shall consist of alternative layout sketches and accompanying written rationale.

(5) At all times during the construction on any site, all trees to be retained within twenty-five (25) feet of a construction area, including disturbance for roads and parking, shall be protected by four (4) foot high barrier fencing, or equal, situated ten (10) feet beyond the canopy drip line or 25 feet from the trunk of the tree, whichever is greater, staked every ten (10) feet to insure that there is no encroachment within the area of the drip line by regrading, trenching, stockpiling of building materials or topsoil, or the compaction of the soil and roots by any motor vehicles. The trees shall not be used for roping, cables, signs, fencing or lighting. No hardware shall be driven into trees to be retained, unless as part of a tree preservation procedure.

(6) Protection of topsoil.

(a) No topsoil shall be removed from the site or used as spoil with out the written permission of the Board of Supervisors. Topsoil must be removed from the areas of construction and stored separately. Upon completion of construction or project phase, the topsoil must be redistributed uniformly on the disturbed areas of the site. All disturbed areas of the site shall be stabilized as follows:

[1] Slopes ten percent (10%) or less: by seeding or planting.

[2] Slopes ten percent (10%) to twenty percent (20%): by sodding or planting

[3] Slopes twenty percent (20%) to twenty-five percent (25%): by planting of groundcover

[4] Slopes exceeding twenty-five percent (25%): by utilization of riprap.

(7) Removal and replacement of existing trees.

(a) Any person, organization, association or corporation engaging in site work such as grading, new construction or other activity which will result in the destruction of existing trees six (6) inches DBH or greater shall prepare a tree survey plan in accordance with Subsection F (1). This requirement may be waived by the township for clearing done to prepare land for agricultural uses.

(b) If greater than twenty-five (25) percent of the existing trees on a site with a trunk diameter of six (6) inches DBH or greater are destroyed because of street alignment, building, placement parking area location, grading or otherwise then replacement of those trees over twenty-five (25) percent threshold shall be required as follows:

[1] The replacement trees may be selected from the recommended lists in Subsection H. Unless otherwise specified by the township, preference shall be given to replacement trees identical to those removed or other native species.

[2] Such new trees shall be planted in addition to the trees required under Subsection G. If requested by the applicant, and at the discretion of the township, a number of trees as determined by the township may be planted on lands owned by the township in lieu of the development site.

[3] The replacement trees shall be shown:

[a] On the tree survey plan with a schedule of trees to be removed and trees to be provided for replacement in accordance with subsection E; or

[b] On a landscape plan with a separate plant schedule for replacement trees: and/or

[c] If applicable, on a schedule of trees to be contributed to the township.

[4] A maximum of twenty percent (20%) of the required trees may be replaced as shrubs at a ratio of ten (10) shrubs per required tree. Refer to Subsection H for sizes and types of trees and shrubs recommended.

[5] Replacement trees shall not be all the same species or size. The range of size classes for replacement shall be variable and non-uniform. No more than ten percent (10%) of understory trees shall be less than 3 caliper inches and no less than 10% shall be larger than 3-1/2 caliper inches. No more than ten percent (10%) of canopy trees shall be less than 4 caliper inches and no less than 10% shall be larger than 4-1/2 caliper inches.

G. Landscape requirements.

(1) The locations, dimensions and spacing of required planting should be adequate for their proper growth and maintenance, taking into account the sizes of such plantings at maturity and their present and future environmental requirements, such as wind, soil, moisture and sunlight.

(2) Plantings should be selected and located where they will not create or contribute to conditions hazardous to the public's safety. Such locations include but shall not be limited to public street rights-of-way; sidewalks; underground and above ground utilities; and sight triangle areas required for unobstructed view at street intersections, as discussed in § 130-16E(5). A clear sight triangle shall be maintained at all points where private vehicular access-ways intersect public streets.

(3) All plant material used shall, at the time of planting, meet the minimum size requirements as stated in Subsection H.

(4) Street trees.

(a) Street trees shall be planted for any subdivision or land development where suitable street trees as defined in Subsection H do not exist, as part of the design and construction of:

[1] New streets.

[2] New sidewalks or pedestrian-ways.

[3] Existing streets, sidewalks, pedestrian-ways, highways, bicycle trails or pathways when they abut or lie within the subdivision or land development.

[4] Access driveways to residential developments having more than four (4) dwelling units.

[5] Renovations to or widening of existing streets or sidewalks.

(b) Spacing. The number of street trees required shall be determined based on twenty-five (25) feet on center for each side of the street, except along primary streets where they may be up to fifty (50) feet on center spacing. Informal groupings of more closely spaced plants which reflect the natural character of the site are encouraged. Required street trees which are not planted on the property shall be placed at the direction of the township.

(c) Setback. Street trees shall be planted a minimum distance of five (5) feet outside and parallel to the right-of-way line, unless otherwise approved by the township. Trees located at intersections shall respect the sight triangle as defined in § 130-16E(5).

(5) Perimeter buffers.

(a) Consistent with the intent of this section, the entire perimeter of a property being developed shall have a buffer which includes trees, shrubs and other landscape improvements necessary to screen or soften the visual impact the development will have on the property, on adjoining properties and on the township.

(b) Softening buffer. Along the side and rear property lines of all developments, where existing vegetation is not sufficient and to meet the requirements of a softening buffer, Subsection G (5)(b)[1] below, and a screen buffer is not required, a permanent softening buffer shall be planted. The following landscape requirements must be adhered to:

[1] The softening buffer plant materials shall include a mix of evergreen and deciduous trees and shrubs in a naturalistic arrangement. The following are minimums for the quantity of plant materials to use. The buffer shall consist of a minimum of one (1) evergreen tree for each thirty five (35) linear feet; one (1) ornamental or shade tree for each fifty (50) linear feet; and one (1) shrub for each ten (10) linear feet of property line. Informal groupings of more closely spaced plants which reflect the natural character of the site are encouraged. Existing vegetation of appropriate species and quantities on the property can be considered in the fulfillment of these requirements.

(c) The buffer planting area along the property lines shall be used for no purpose other than the planting of trees, shrubs and lawn and may include a wall or fence. Parking shall not be permitted. Any wall or fence shall be constructed in such a manner that it will not conflict with the character of the abutting district

(d) The buffer planting shall be aligned adjacent to and within thirty (30) feet of property lines or right-of-way boundaries. An innovative and naturalistic arrangement of plant materials is encouraged.

(e) Within the buffer area, no proposed slope shall be steeper than four to one (4:1) [one (1) foot height for each four (4) feet width] unless it previously existed.

(f) Screen buffer. Where under applicable sections of Chapter 150, Zoning, screen buffers are required for the entire length of all common boundaries abutting adjacent districts, such sections are hereby amended and the following landscape requirements shall be adhered to:

[1] Trees and shrubs used for a screening shall be composed of at least seventy-five percent (75%) evergreen trees and shrubs and shall be so arranged as to provide an immediate visual screen of fifty percent (50%) measured at five (5) feet from the ground. Evergreen trees shall be at least eight (8) feet in height at the time of planting. The balance of the plantings may be deciduous trees and shrubs.

[2] Earthen berms may be used in conjunction with vegetative buffers, either softening or screening, provided that the slopes within the buffer area are no steeper than 4:1 and that the overall visual topographic effect is natural, with undulating contours.

[3] Innovative means of screening are encouraged; however, there shall be a minimum on one (1) evergreen tree and three (3) shrubs for each twelve (12) linear feet of property

(6) Off-street parking areas.

(a) The perimeters of off-street parking lots in all districts shall be buffered in accordance with the above regulations by means of screening buffers. Internal spaces between buildings and parking areas shall have a minimum width of fifteen (15) feet and be buffered with softening buffers. This shall include a softening buffer between buildings and parking as well as between parking areas and public streets. In addition, any parking closer than fifty (50) feet to a public street, right-of-way or residential district, shall have a continuous row of shrubs, fence, wall, berm or combination of these to a minimum height of three (3) feet between the street or residential district and parking area.

(b) Not more than fifteen (15) parking spaces shall be placed in a continuous row without an intervening raised planting island of at least ten (10) feet in width and the length of the parking stall.

(c) Within a parking area of over two thousand (2,000) square feet, a minimum of ten percent (10%) of the area shall be devoted to landscaping. This landscaping shall include a minimum of one (1) tree per fifteen (15) parking spaces, and all planting islands within a parking lot shall be surfaced in lawn or ground cover planting.

(d) Raised planting islands shall be placed at the end of each row of parking spaces which begins or terminates at an internal circulation aisle.

(e) For any land use where the total number of parking spaces in one (1) parking lot exceeds one hundred (100) stalls, the parking areas shall be divided by continuous center planting islands perpendicular to the spaces every one hundred thirty (130) feet [one hundred thirty (130) feet assuming four (4) rows of parking at twenty-foot lengths and two (2) aisles at twenty-five foot widths]. These divider islands shall be a minimum of ten (10) feet wide.

(f) Raised continuous concrete curbing shall be required around each planting island.

(g) The placement of lighting standards shall be coordinated with the landscape design to avoid conflicts and to avoid blocking of the lighting by the landscaping.

(h) As a alternative to subsections (d) and (f) above, designs incorporating biofiltration or other best management practices may be submitted for consideration, subject to rejection in favor of the traditional designs of subsection (d) and (f).

(7) Drainage area and detention basin landscaping. Whenever a detention or retention basin is provided, such basin shall conform to the requirements set forth in § 130-24, Chapter 150, Zoning and the following landscaping requirements:

(a) The basin shall be so designed that the plantings in and adjacent to it shall not have a negative effect on the hydrological function of the basin.

(b) All continuously flowing natural watercourses shall be maintained in their natural state except that the removal of debris and correction of severe erosion shall be required.

(c) Intermittent streams shall be maintained essentially at their existing alignments and gradients except that they may be improved by minor re-grading, subject to the approval of the Township Engineer, and shall either be planted and stabilized in vegetative cover or provided with erosion preventive improvements such as riverstone or riprap.

(d) Drainage ways and detention and retention basins should be compatible with the adjacent land use. Creative grading and innovative basin forms shall be utilized wherever physically possible. Where basins adjoin existing woodlands, it is recommended that planting be selected to blend with the natural surroundings.

(e) Basin floors:

[1] Floors dry most of the year shall be landscaped in one (1) or combination of the following:

[a] Seeded or sodded lawn.

[b] Seeded in low-maintenance wildflowers and meadow grasses.

[c] All-season groundcover

[2] Basin floors, portions of a floor or channels which are wet most of the year shall be landscaped in one (1) or a combination of the following:

[a] Wet habitat grasses and ground covers.

[b] Seeded in wildflower mix suitable for wet areas.

(f) Basin perimeter plantings. There shall be a minimum of one (1) shade tree for each fifty (50) linear feet of basin perimeter. To promote diversity, up to 50% of the shade trees may be substituted with an option of two flowering trees, one evergreen tree or ten (10) shrubs for every shade tree. Plantings shall be at least ten (10) feet from the toe of the berm.

(8) Service, loading, trash disposal areas, outdoor displays, material storage, transformers and mechanical equipment. All service, utility, delivery, loading and outdoor storage and trash disposal areas shall be screened from all residential districts, public streets, parking lots and pedestrian walkways. Screening shall be by the use of fences, walls, berms or a combination of these. Screening shall be installed and maintained at a height which effectively blocks the view but shall not be less than six feet. The screening shall have exterior plantings at minimum intervals of 10 feet. See Subsection H (4) for recommended plant types.

(9) Individual lot landscaping requirements. In addition to the landscape requirements as defined in Subsection G (4), Street trees, Subsection G (5), Perimeter buffers, Subsection G (6) Off-street parking areas, Subsection G (7), Drainage area and detention basin landscaping, and Subsection G (8) Service, loading and trash disposal areas, each individual building lot or dwelling unit shall provide the following unless an equivalent number of existing trees are present on the lot:

(a) Each single-family detached dwelling shall have a minimum of three (3) deciduous or evergreen trees as listed in Subsection H.

(b) Each multi-family dwelling unit shall have one (1) deciduous or evergreen tree as listed in Subsection H.

(c) Each building lot in all other districts shall provide one (1) deciduous or evergreen tree as listed in Subsection H per 5,000 square feet of gross floor area of building.

(10) RPD cluster landscaping requirements. All RPD Rural Preservation District developments shall comply with the following requirements:

(a) Developments shall provide street trees, drainage area and detention basin landscaping, service area landscaping and individual lot landscaping, as required by § 130-28G(4), G(7), G(8) and G(9) of this chapter.

(b) Within all required setbacks between neighborhoods and along tract boundaries located within 200 feet of a neighborhood, a planted buffer area at least 25 feet in width shall be established. Where natural plant materials do not exist or are insufficient, the following plant materials shall be provided per 100 linear feet:

[1] Four canopy trees.

[2] Four ornamental trees.

[3] Four evergreen trees.

(c) Within all required setbacks from external road ultimate rights-of-way, a planted buffer area at 25 feet in width shall be established. Where natural plant materials do not exist or are insufficient, the following plant materials shall be provided per 100 linear feet:

[1] Two canopy trees.

[2] Four ornamental trees.

[3] Ten evergreen trees.

(d) plant materials may be arranged in an informal manner. An informal arrangement of native plant species combined with infrequent mowing is strongly encouraged to create a low-maintenance naturalized landscape.

H. Recommended plant materials. The following are recommended plant materials which are provided as guidance to the landowner or applicant. Subsection H (1) and (2) includes those tree species considered to be well adapted to southeastern Pennsylvania and Worcester Township. All trees listed may be used in rear and side yard buffers. Trees marked with an asterisk (*) have characteristics making them suitable for use as street trees or in buffers along streets. Subsection H (5) provides a list of native trees and shrubs. Indigenous to the region, they are hardy and well-adapted to the climate and soils. All are commercially available, some as several varieties. The use of native plant materials is encouraged to promote the preservation of native landscape diversity. This approach maintains the natural character unique to this region and protects the associated wildlife habitat. These native materials are especially suitable in buffer plantings. The township will permit other planting types than those specified on the following lists if the species are hardy to the area, are not subject to blight or disease and are of the same general character and growth habit as those listed below or subject to the approval of the Township Engineer or other designated professional.

(1) Canopy trees; minimum three and one half (3½) inch caliper.

Scientific Name	Common Name
*Acer rubrum	Red maple
Acer saccharum	Sugar maple
Betula nigra	River birch
*Celtis occidentalis	Hackberry
Cladrastris lutea	Yellow wood
*Corylus colurna	Turkish filbert
Fagus grandifolia	American beech
*Fraxinus americana	White ash
*Fraxinus pennsylvanica var. lanceolata	Green ash "Marshall's seedless"
*Ginkgo biloba (male only)	Ginkgo

*Gleditsia triacanthos var. inermis	Thornless honey locust
Gymnocladus dioicus	Kentucky coffee tree
*Koelrueteria paniculata	Goldenrain tree
*Liquidambar styraciflua	Sweetgum
*Liriodendron tulipifera	Tulip tree
Nyssa sylvatica	Black gum
Ostrya virginiana	Hop hornbeam
*Phellodendron amurense	Amur corktree
*Platanus acerfolia cv. Bloodgood	Bloodgood London plane-tree
*Quercus acutissima	Sawtooth oak
*Quercus alba	White oak
*Quercus bicolor	Swamp white oak
*Quercus coccinea	Scarlet oak
*Quercus macrocarpa	Bur oak
*Quercus palustris	Pin oak
*Quercus phellos	Willow oak
*Quercus rober	English oak
Quercus rubra (borealis)	Red oak
*Sophora japonica	Japanese pagodatree
Taxodium distichum	Baldcypress
*Tilia cordata	Littleleaf linden
*Tilia x euchlora	Crimean linden
*Ulmus americana libertas	American liberty elm
*Ulmus parviflora	Chinese lacebark elm
*Zelkova serrata	Japanese zelkova

(2) Small understory trees: minimum two and one-half (2½) inches in caliper or eight (8) feet in height.

Scientific Name	Common Name
*Acer campestre	Hedge maple
*Acer ginnala	Amur maple
Amelanchier canadensis	Shadblow serviceberry
Amelanchier laevis	
Carpinus betulus	European hornbeam
Carpinus caroliniana	American hornbeam
Chionanthus virginicus	White fringetree
Cornus florida	Flowering dogwood
Cornus kousa	Kousa dogwood
Cornus mas	Cornelian cherry
Cotinus coggygria	Smoke tree
*Crataegus phaenopyrum	Washington hawthorn
*Crataegus toba	Toba hawthorn
*Crataegus viridis cv. winter king	Winter king hawthorn
*Eucommia ulmoides	Hardy rubber tree

Magnolia soulangeana	Saucer magnolia
Magnolia stellata	Star magnolia
Magnolia virginiana	Sweetbay magnolia
*Malus floribunda	Japanese flowering crab apple
*Malus cv. Donald Wyman	Donald Wyman crabapple
*Malus cv. Centurian	Centurian crabapple
Metasequoia glyptostroboides	Dawn redwood
Oxydendrum arboreum	Sourwood
*Prunus sargentii	Sargent cherry
*Prunus yedoensis	Yoshino cherry
Styrax japonica	Japanese snowbell tree
Syringa reticulata	Lilac

(3) Evergreen trees for buffers; minimum height of eight (8) feet; not for use as street trees; may be used for buffers along streets, if a minimum width of ten feet is available.

Scientific Name	Common Name
Cedrus atlantica	Atlas cedar
Chamaecyparis obtusa	Hinoki cedar
Chamaecyparis pisifera	Sawara false cypress
Ilex opaca	American holly
Picea abies	Norway spruce
Picea omorika	Siberian spruce
Picea orientalis	Oriental spruce
Pinus bungeana	Lace Bark pine
Pinus strobus	White pine
Pinus thunbergii	Japanese black pine
Pseudotsuga menziesii	Douglas fir
Taxus cuspidata var. capitata	Japanese yew
Thuja occidentalis cv. nigra	Dark green arborvitae
Tsuga canadensis	Canadian hemlock

(3) The money deposited for each phase of landscaping will not be released until the time has expired for determining, in accordance with Subsection I(1) and (2) above, if the planting for that phase is viable.

SECTION II. Disclaimer

Nothing in this Ordinance shall be construed to affect any suit or proceeding now pending in any court, or any rights acquired or liabilities incurred, or any permit issued, or any cause or causes of action existing under the Ordinances of the Township prior to the enactment of this Ordinance.

SECTION III. Severability

The provisions of this Ordinance are severable, and if any section, sentence, clause, part or provision hereof shall be held illegal, invalid or unconstitutional by any court of competent jurisdiction, such decision of the court shall not affect or impair the remaining sections, sentences,

clauses, parts or provisions of this Ordinance. It is hereby declared to be the intent of the Board that this Ordinance would have been adopted even if such illegal, invalid or unconstitutional section, sentence, clause, part or provision had not been included herein.

SECTION IV. Failure to Enforce Not a Waiver

The failure of the Township to enforce any provision of this Ordinance shall not constitute a waiver by the Township of its rights of future enforcement hereunder.

SECTION V. Effective Date

This Ordinance shall take effect and be in force from and after its approval as required by the law.
