

# Eight simple steps to clean water.

Keep your lawn small.

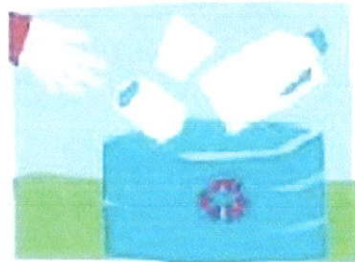

Dispose of chemicals properly

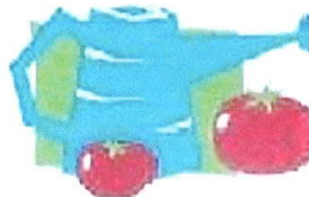

Prevent soil erosion

Compost your waste

Reduce. Reuse. Recycle.

Use less fertilizer

Maintain your septic system.

Use trees and shrubs to filter runoff.

Stormwater Runoff from your yard is contributing to your communities water quality problems. By doing these simple steps you can help protect our lakes, rivers and streams.

## Clean water starts with you!

To report an illicit discharge to the Storm Sewer System, please call (610) 584-1410
