

BRICKS4KIDZ

WHEELS IN MOTION: Ages 9-14

These wheels are ready to roll! Students will use LEGO® Bricks, axles, pulleys, gears, and motors to build a variety of models on wheels. Some are familiar vehicles, such as a fire engine and delivery truck. Others are more spectacular, such as the Rescue Robot and K-9 Bot. Do you have a need for speed? Put your Speed Bot model to the test as your race against others using remote controls! We'll explore concepts of speed and force and gain non-vehicle knowledge from the unconventional Wheels in Motion models as well. Let's roll! **Each kid receives a custom mini figure at the end of the session**
