Lane Restrictions Scheduled on North Wales Road and Morris Road for Intersection Realignment

King of Prussia – The Pennsylvania Department of Transportation (PennDOT) today announced that lane restrictions are scheduled on North Wales Road and Morris Road in Worcester, Upper Gwynedd, and Whitpain townships, Montgomery County, next week (March 28-April 1) for the \$1.8 million project to improve the intersection of these two roads.

The work schedule is:

- Monday through Friday (March 28-April 1) – One lane will be closed on northbound and southbound North Wales Road between Route 73 and Cardinal Way from 9 a.m. to 3 p.m.
- Monday through Friday (March 28-April 1) – One lane will be closed on eastbound and westbound Morris Road between DeKalb Pike and West Point Pike from 9 a.m. to 3 p.m.

Under the project, crews will eliminate two existing T-intersections and create a single four-way signalized intersection. Crews will also resurface the roadway approaches, widen to provide right and left turn lanes, improve drainage, pavement marking, and signing.

During construction, there will be two separate traffic detours. Local access will be maintained up to the construction zone.

Allan A. Myers, LP, of Worcester, Pa, is the general contractor on the \$1,790,282 project that is financed with 80 percent federal and 20 percent state funds. The project is expected to be completed by November 2011

PennDOT reminds motorists they can log on to 511pa.com or call 511 from any phone to check traffic conditions on major highways before heading out.
