**Attention:** Tommy Ryan, Township Manager

**Reference:** Meadowood - Conditional Use Application - Riparian Corridor Crossing

Dear Mr. Ryan:

I am in receipt of an application for conditional use approval in conjunction with a proposed riparian corridor crossing for a project being proposed by the Meadowood Corporation. The application proposes crossing Riparian Zones 1 and 2 with a driveway between their existing property and a property which they recently purchased which is located on Skippack Pike. The purpose of this driveway is to provide direct access to the site of the Victory Garden currently proposed by Meadowood for the new property. This driveway would eliminate the need for the residents of Meadowood to access the new Victory Garden location from the existing driveway access off of Skippack Pike. The driveway would allow an internal connection between the two (2) properties.

Accompanying the application is a two (2) sheet plan set prepared by Woodrow & Associates, Inc., for Meadowood. This plan set shows the location of the proposed driveway, and the construction required to make the driveway crossing. The driveway crossing would cross through both Zones 1 and 2 of the riparian corridor and also through the identified Floodplain Conservation District. In order to construct this crossing, Meadowood must comply with the zoning requirements associated with the riparian crossing. Specifically, Section 150-146.7.A(2)(a) and Section 150.146.7.B(2)(b). These sections of the ordinance require conditional use approval by the Board of Supervisors in conjunction with the crossing of the riparian corridor with a driveway.

I have reviewed the application and the proposed plan, and am not opposed to allowing this crossing and conditional use approval required. However, I would recommend the following conditions be included as part of the approval.

1. Meadowood must also receive the required approval from the Zoning Hearing Board as required by Section 150-138.A(4)(b), regarding passing through the floodplain.

2. Obtain all permits required in conjunction with constructing this crossing. This includes any permits required from PADEP or Worcester Township.
3. Provide hydraulic calculations of the proposed pipe that will be installed in conjunction with the crossing for review and approval.
4. The applicant must also prepare a plan identifying the erosion and sedimentation controls that will be installed in conjunction with construction.
5. Construction should be inspected by the Township to ensure compliance with the approved plan.

The above represents all comments on this Conditional Use Application. Please contact me if you have any questions or need any additional assistance in conjunction with this application.

Very truly yours,

Reference: 3033 Fisher Road - Proposed On-Lot Sewage System - Grading Plan

Dear Andrew:

I am in receipt of your letter dated February 26, 2019 requesting my review of the site plan prepared for the property owners at 3033 Fisher Road. This plan proposes the installation of a replacement on-lot sewage disposal system which will replace the existing failing system on the property. This plan consists of one (1) sheet, has been prepared by Penns Trail Environmental, and is dated November 30, 2018.

I have reviewed the grading plan and find the plan to be acceptable. However, the proposed location of the new drip disposal area will encroach into the front yard of the property. Therefore, the applicant must secure a waiver for this system location. In reviewing the site plan, the location of the well, and existing features on the property, it appears that the proposed location would be the only acceptable location for this portion of the sewage disposal system.

I would request that the applicant make a formal application to the Board for this waiver so it can be addressed at an upcoming Board of Supervisors meeting. Please contact me if you have any questions or need any further assistance on this plan.

Very truly yours,

Attention: Tommy Ryan, General Manager  
Quarry Hall Road - Storm Sewer Replacement - Summary of Bids

Dear Mr. Ryan:

Bids were received for the above-referenced contract on March 6, 2019. A total of eight (8) bids were submitted for this project. Attached to this letter is a bid summary and a tabulations of all submitted bids.

The low bidder is Property Solutions Contracting of Plymouth Meeting Pennsylvania. They submitted a base bid of \$18,208.00. We have reviewed the bid documents submitted by Property Solutions Contracting and find them to be in order. We have also reviewed the qualifications and experience of this contractor and find them to be acceptable. We are therefore recommending the Township award this contract to Property Solutions Contracting.

It should be noted that in addition to the base bid of \$18,209.00, the contract documents did provide for an alternate/add-on bid item for the use of sod on all existing grass areas that are disturbed during the course of construction. This additional add-on item is \$1,512.00. If the Township decided to proceed with the add-on item, then the total bid amount is \$19,720.00.

I would be happy to discuss this contact further with you and the board in anticipation of contract award. Please contact this office if you have any questions or need any additional assistance on this project.

Very truly yours,

**A PROCLAMATION TO RECOGNIZE APRIL 2019  
AS PENNSYLVANIA 811 SAFE DIGGING MONTH**

**WHEREAS**, engineers, designers, excavators and homeowners work to keep pace with the Commonwealth's unprecedented economic development, by dialing 8-1-1 in advance of excavation to minimize damage to underground utility lines, danger to workers, environmental pollution and loss of utility service to Pennsylvania citizens; and,

**WHEREAS**, this unique service provides easy, one-call notification about excavation projects which may endanger workers and jeopardize utility lines while promoting workplace and public safety, reducing underground utility damage, minimizing utility service interruptions and protecting the environment; and,

**WHEREAS**, this vital service, which began with only six utility companies; now serves more than 100,000 excavators and 3,600 critical infrastructure owners throughout the Commonwealth of Pennsylvania; and,

**WHEREAS**, each year Pennsylvania 811 receives more than 800,000 notification requests and transmits more than six million notifications, providing protection to utility companies, their employees, customers and the citizens of Worcester Township;

**NOW, THEREFORE, BE IT RESOLVED**, that Worcester Township recognizes the month of April, 2019 as "Pennsylvania 811 Safe Digging Month", and encourages all excavators and homeowners to dial 8-1-1 at least three business days in advance of an excavation project, including small projects such as planting a tree, installing a mailbox post, building a deck or replacing a driveway, in order to avoid injury, protect the environment, prevent damages, and to remind excavators that three business days' notice is the law for safe digging.
